INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP03/14644

Box I Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The technical feature common to claims 1-8 is "a UV-cure resin composition for bonding optical disk substrate wherein one or both of the optical disk substrates to be bonded have a total-reflection film or a semitransparent reflective film composed of silver or a silver alloy characterized by containing (A) an epoxy (meth)acrylate, 2,2-dimethoxy-1,2-diphenylethane-1-one, and (E) a monofunctional, bifunctional, trifunctional (meth)acrylate monomer other than (A) as essential components" defined in claim 1.

(Continued to extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest ☐ The additional search fees were accompanied by the applicant's protest.
☐ No protest accompanied the payment of additional search fees.

Continuation of Box No. II of continuation of first sheet (1)

However, the international search has revealed that the above common feature is not novel since it is disclosed in the documents listed on the attached sheet. Consequently, the common technical feature is not a special technical feature within the meaning of PCT Rule 13.2. Further, there is no other common feature which can be considered as a special technical feature.
